*Unfortunately, a portion of the Question and Answer period, as well as the Pros and Cons were handwritten, and misplaced during transition. Please accept the apologies of all involved for this mistake.*

Kettering University-talked about instituting team building, that's good, but hold RBD accountable, didn't have a set way to do so

Question called by Ball State University

Objection by Michigan State University

Back to discussion

University of Guelph – reminding us that we are all over committed, who better to remind us about that then someone who is over committed herself

Western Michigan University – advising conference is a definite bonus

Michigan State University – not a lot of concrete goals, however, I think that the conference pack is awesome, wants to coordinate in advisors, and going to subregion is effective as well  
Saint Mary's College- seemed very focused on assessment of leadership styles, seems somewhat over focused on assessment rather than what needs to be done

Illinois State University – great of an advisor to have goals focus around RBD, it makes sense, and since she doesn't know who RBD is, that's okay that goals are minimal

Millikin – holding RBD accountable ...seems very accommodating to us,

Carthage College – assessing is part of the position, and good

UW-La Crosse – worked with conference staffs at various schools that is a great thing

DePaul University – in regards to leadership style, its important to know these so as to get things done effectively

1999-2000 GLACURH Advisor Elect - Jacque Bollinger

**SOY Presentation**

Welcome Brock University

Five minute question and answer session, please call your own questions

Introductions of the bid team

Illinois State University – what motivated you to submit this bid? Deciding factor is that people who attend Brock are very proud, and we thought it would be a great idea to recognize the hard work my many many student leaders

Illinois State University – what makes this year different? Honestly, doesn't make a difference, Brock is always changing, we are constantly working to improve our school, we could submit every year because we improve every year.

Cardinal Stritch College – what improvements have you made on your campus? Made several improvements, made a campus-wide Pepsi deal, donated money, and they now are the pop company on campus, we also improved with adding of new positions to exec board, we now have conference delegates present programs on the conference and what they learned – sex fest is one example of a program brought back

University of Illinois – Chicago - please reintroduce yourself, Darren Fox, Lindsey McLain, Brent Hall

Carthage College – page 6 of bid, quite lengthy list of goals, and how have you achieved them? And been effective in achieving them, what have you done to achieve them?

Time

Western Illinois University – extend by 5 minutes

Illinois State University second

UW- Green Bay question

UW - Milwaukee, consent

No objection to 5 minute extension

Laying solid foundation for BRHH/NRHH, increasing awareness about RAC, bringing awareness to hall governments regarding RAC, helping general members taking more initiative within respective councils/committees

University of Illinois - Chicago – specific goals from 98-99??? To be year specific – hard question to answer, because we weren't the execs who made them up, don't feel as if we can say well what they were

Saginaw Valley State University – what are some problems on your campus – village residence sometimes separates people, problem is getting them to come out to join others, we have been working diligently on that...off campus residence have a hard time getting them involved on campus, also look of building isn't that great, we've made improvements, and residents seem happy about that – 4 years ago, Brock University was restructured, positions are always new and restructuring,

Time

Carthage College, extend by 5

Second by UW-Green Bay

Question by DePauw University

Cardinal Stritch College consent

Objection from DePaul University

Vote, motion clearly passes

Please continue

Best part about our school it is very easy to change, every couple of years we change our constitution

Purdue University – flip side, pick one thing that makes Brock stand out – students, we've gotten an incredible response from them,

Carthage College – page 8, talk about increased awareness through public relations through RAC, how effect have the steps you’ve taken and what are they? RAC web page – always info about RAC and execs and upcoming events , access to ‘Brock TV’ and we can advertise events on that

UW - Milwaukee – reading through programs, what is yearly turnover rate? Depends on the residence you’re involved in – first year incoming ~40% returning~%60 upperclassmen, - we do have a very high turnover rate to get back into residence

Carthage College – discussed other student groups with Brock – what is your residence life staff and what is roll with RAC? ..we work really close together, exchange of events, assist promoting, bring houses to programs, we’re both there as student groups for the students

Time

No motion

thank you Brock University

*Unfortunately, the Pros and Cons were handwritten, and misplaced during transition. Please accept the apologies of all involved for this mistake.*

### **SOY Discussion**

Central Michigan University – when asked questions they said I not WE,

Illinois State University – concern bout statement of submitting bid every year was possible

DePaul University – year specific was not a factor

Carthage College – year specific – what does that mean? GLACURH Conference to GLACURH Conference

Purdue University – team represents what's going on this year, not what their bid is about – the year

Michigan State University – used 96 conference and forming of ORHA and those weren’t in this year

Kettering University – organization was restructured, and are now an absolute powerhouse (many snaps to tom)

Carthage College – when looking to choose soy to go on, we’re looking for perfection – we’re looking in the wrong place, what we’ve got is people who are working to perfection, they’ve made steps,

Illinois State University – why did they submit this bid...why? This question hasn’t been answered – if its been the same the last couple of years, then everyone could submit – don’t understand why they stand out –

University of Guelph – struck with overall balance with bid – initiatives, programs

Vote

### **POY Presentation**

Grand Valley State University will answer questions first, then University of Guelph

Welcome Grand Valley State University

UW-Madison – please discuss challenges and how you reacted to them? One difficulty getting house councils established,

Western Michigan University – please elaborate on falling up theme – always stepping up, making the right decisions to move forward,  
Augustana College – how do you keep 150 plus students involved? Through our committees and co-chairs we're always looking for new leaders  
Cardinal Stritch College – what makes this year different? We are taking an effort to diversify our programs, we're trying to get a wide array of programs  
Carthage College – what programs are new specific to this year? Major new program was island hopping – held our delegates responsible for what we learned here...they had to present a new program on our campus –  
Augustana College – committees in RHA that put programs on – what is the rate on people who attend RHA AND the programs you put on ? Laker Shake had over 1500 people in attendance, we always have large attendance from on and off campus residence

Cardinal Stritch College – what goals did you set, and how have they been developed? Getting everyone involved in what we're doing – well informed, constantly being a support system, recently participated in national coming out day – went very well,, very large event --- programming was also a main goal as well

UW - Milwaukee – please restate your positions, and from freshman how did you learn this stuff? These people were there for me – can we help you move in, and other such – RHA drew me in with programs,

Carthage College – RHA structure, mention of ex-officio positions, please explain and effectiveness? Based off SAT – very effective

Marquette University – different view within res halls, do you have different rolls in res halls and campus? and how does budget reflect that? Our RHA is a programming organization – our budget works that way due to funding with student senate – we can program as a whole

Carthage College – page 8 – student senate, how have you utilized involvement – student senate approaches us, we work with them to get students voices heard on various issues –

UW - La Crosse – please explain how your RAs work with RHA to provide programming.? We have a lot of RAs on exec boards, - they use our resources, and we work very well together,

University of Illinois - Urbana/Champaign – NRHH and OTMs not mentioned much, please mention how NRHH is involved – doing a lot of community service, come to RHA to recognize with OTMs, use as a resource for other campus groups to get recognition – NRHH holds academic round tables for quiet time for homework –

*Unfortunately, the Pros and Cons were handwritten, and misplaced during transition. Please accept the apologies of all involved for this mistake.*

Welcome University of Guelph

UW - La Crosse-What is done differently – more done with administration, restructure of IHC to rep students more

UW - Green Bay – what was biggest hurdle? – Mills residence converting from all male to co-ed – established committees and working with administration. Also relayed info from committees back to students at meetings within halls, and feedback taken.

University of Michigan – many events seem like just one hall.... True, but IHC is a supporting staff formed from hall presidents from each hall. IHC also provides resources. Also has been encouraging halls to do things together. South residence consist of 3 halls which have programs which unite all three.

Cardinal Stritch College – goals listed, but what have you done to follow through on these?

4 goals – quality in res life is first one. Res life working with IHC to create more opportunities for students. Committees use increase. Reps and RA who sit on each other's councils to support each other's events, through funding, advertising and word of mouth. IHC gets words to rep who get word back top their students

Carthage College – regarding herd the word – how effective has been using various opportunities been such as newspaper. Has been used to get word of co-ed hall issues out, some global and political issues, international issues. Like to use it though to give recognition.

Carthage College – has it helped with things like issues? – definitely, received lots of feedback and response and recognition

UW - La Crosse – training up and comers, how are they recruited and r3etained? – leadership conferences, guest speaker, herd the word, word of mouth, asking for feedback from these people. It's fun!

Multiple objections.

29 for, 17 opposed, 5 abstentions – motion passes

-also to encourage people ask them to run own events to gain leadership and background and stay involve

Ball State University - what was biggest accomplishment? – working with administration, and how well they jointly sit on each others meetings. Recognized as being political leader, not just social. Since it is definitely seen as representative, more people take advantage of that

Michigan State University – the res life - first year students are guaranteed residence, though many upper-class want to return. One apartment style complex. New hall is being planned since so many people seem to want to stay on campus

University of Illinois - Urbana/Champaign – explain more how BRHH works? – BRHH works like NRHH but not affiliated yet. Students send in forms for awards themselves, and student committee decided on them

Butler University – what happens with upperclass who want to be on campus? Do you do anything for them? Housing for off campus office exists to try to help them find things; co-op housing. houses which Guelph owns.

Carthage College very impressed with Guelphs presentation – ditto to Green Bay

UW - Stout – impressed with programs, and charity at Guelph

UW-Green Bay – amazing how many hurdles Guelph has jumped

Brock University – seeing someone getting involved from Guelph is bonus

UW - Stevens Point – good thing Guelph went in to details in bid

Kettering University – both schools great bid, grand valley had excellent job, all encompassing, incorporate everyone,

Butler University – both bids good, grand valley hand signed bids, Guelphs programs, displacing upperclassmen residence, options are nice, but I feel they are neglecting needs of upperclassman,

Cardinal Stritch College – both bids great, like how Guelph has shown how changes have been made, admin work is excellent,

Ball State University, echo Kettering University and Butler University, very detailed, Grand Valley state signed all bids, all encompassing, work with athletics, minority affairs, student life,

DePaul University – both were good, grand valley 2 freshman on bid team issue – they only know from august to now, not GLACURH to GLACURH  
Western Illinois University- Guelph didn't try to make university look perfect the whole year, they did have problems, and admitted to it...there are problems on campus, they are working on them, and they showed they aren't perfect  
University of Windsor – great that Guelph accepts frosh,  
Carthage College – first year residence is not controlled by RHA, more high administration, all encompassing with how Guelph has it in team sports,  
UW - La Crosse – impressed with freshman on bid team,

Rose-Hulman Institute of Technology – what do you see as biggest challenge and how do you go about facing that? Enjoy working with money, but at same time, its always touchy issues, need to be clear about who is gonna be held accountable, need to help schools be held accountable, I enjoy this, but it will be challenging

UW - La Crosse – what is your roll as NBD member, and goals for that roll as well? I want to see myself taking responsible to take NBD things back to NCCs, so as not a big surprise

Cardinal Stritch College – what are your strengths and weaknesses – I'm a fun person, strength – have knowledge of immigration and customs being from Japan, communication

University of Illinois - Chicago – English has improved since last year – do you think you’ll be capable in taking minutes with language barrier? I’ll definitely ask for help, better to ask for help, then to not have accurate minutes

**GLACURH Director Bids**, alphabetical order

**Welcome Vicka Bell**

Jim Wessel – what would do different from past Directors?...Pro/con feed back right away.

Email listserv and phone numbers of RCCs especially during semi’s. Encourage people to seek their source of issues.

Illinois States University – how would you help all NCCs transition similarly?...Put a transition manual online, and make a binder/folder which everyone had seek input off NCCs who’ve bad transition.

Time

Extended 5 minutes

UW – Milwaukee – why move listserv and web page?...we are responsible to keep you as updated possible, utilize rescues if they are available.

Carthage College – mentioned listserv. What is the Director? Vote on that and things like issue sessions?...didn't want to reply so that she could hear from NCCs but wants to do that CCs want.

Butler University – NRHH president: why would you lower GPA standard?...2.667 was still a B which is above average.

Cardinal Stritch College – how would you carry out theme?...I can show leadership and work with responsibility and vision throughout term. As IL RCC, always carried goals with kinda like play doh; everything I did had an input.

Kettering University – feelings on campus residency?...quite torn; but talked to schools at summer meeting. Believes that if RHA at your school recognizes you, then it should be ok for you to be.

Time

Carthage College extend 5 minutes

Second Illinois State University

Question and consent by many

??? – feelings on sub-regions being recognized?...GLACURH definitely could be a resource for each other, and any interactions would be beneficial.

Purdue – how would you help NCCs have their feelings heard on national level? What do you think about bulletin?...would rather keep it on email because that would force people to at least see part of everything. Thinks it might be more of a hassle. On line committees might find useful.

UW – La Crosses – what specific goals do you have about working with NBD?...that would be the hardest struggle trying to balance region with national, but no separate goals for that, but does not want to sacrifice any GLACURH goals to set NBD ones.

Time

Carthage College extend 5 minutes

Second Western Illinois University

Question Marquette University

Objection

### **Welcome Tam Knapton**

UW – Eau Claire – why did you wait so long to bid?...Conference hosting experience has really helped to push over. Director would be good position to share that experience.

Jim Wessel – what would you do differently from past Directors?...improve communication and compile information between conference host and RBD. Hold group activities.

Purdue – GLACURH '98 @Central Michigan University, wasn't it at Michigan State University?...yes typo

- what do you think about bulletin board forum?...technology is something wich is a hard thing for me, but willing and able to learn.

UW – Eau Claire – co-president interfere with duties?...only does “tasky” stuff and not time does not.

DePaul University– elaborate on how co-chair helped you?...biggest thing is that so much information is not in a compact form and conference experience helped.

Carthage College - communication is key. How do you intend to facilitate issues and get NCCs involved?...attend issue sessions and those are a great ideas. Very important.

Kettering University – off campus residency issue?...feel that RBD needs to live in hall; other outlets

UW- #8 in bid\_ explain, more...wanted address list which is permanent somewhere to help conference. Check list of thing needed to be bid so school knows if it is capable of hosting.

University of Illinois at Chicago – Parli Pro experience?...not the strongest, but seen it used well and not would do mock the meeting.

DePaul University – could you represent GL on national level and goals?...yes, I’ve represented people before, and would represent what NCCs want even of a against personal opinion.

Butler University - how would you feel you would do with juggling communications...I have been doing that, and an advisor has said she feels that I am capable.

Purdue University – what do you think of bulletin board feedback?...don’t know how, but thinks it’s an excellent idea, maybe in conjunction with NIC.

Carthage College – how would you facilitate future issues?... can tell how much people really feel about issues which are replies to. Would follow up some emails with previous email or phone call to find what you really feel.

Butler University – off campus residency? ... wishy-washy, but not her decision, would support it on a national level and provide own feedback.

Discussion

UW – Superior – Heather was the only one to mention Parliamentarian

Carthage College – Vicka and Heather have CCs very much in mind and issues there in. Heather wants to get to cover issues of next. Vicca same thing.

Purdue University – Vicka seems really personal, but Heather knows what director ‘s can go.

Butler University – Vicka has strong personal bid along with Heather. Vicka seemed to confuse a bit with technology part. Concerned with Tam’s bids and her leaving school for grad school.

UW – Madison – Heather has most heart which is most important.

Cardinal Stritch College – Vicka and Heather oral bids stood out much more and had more substance as to where to go. All were good candidates.

Brock University – Tam says, “GLACURH is here for us” comment concerned him. Heather seemed to have it all together.

University of Illinois at Chicago – Tam main point was conference co-chairing, but wasn’t that great personally. Heather is a great candidate and has a heart, but Vicka will represent GLACURH a lot better- No-Frills issue sessions example. Vicka is a spirit builder and initiated many things and is the better candidate. Vicka has the heart of GLACURH and sub-regions and can lead all.

Albion College – Tam, lack of technology, so cannot take us to next step.

Western Michigan University – who is approachable is most important, and that’s Vicka.

Time

Purdue University extend 5 minutes.

Second UW – Superior

Question University of Evansville

Consent

UW – River Falls – agree with UIC, and like her honesty focus in Vicka’s presentation and very personal, and that; what’s needed.

UW – La Crosse – ditto Madison. Heather will represent best at National level, and might come across as unapproachable at times, but has regions best interests at heart.

Milikin University – concerned with Tam. Tech is important, but basics are essential which is what Vicka meant

De Pauw University – Vicka has best interests of GLACURH in mind.

University of Evansville - Heather was all about GLACURH loving and she wanted to represent us. She is very well rounded, and this is next step. Her special projects were same size as NACURH.

Time

Extended

Grand Valley State University - impresses by Vicka. Her bids incorporated current issues v.s. just ones based on position. Need a director who is personable.

IU- Bloomington – 2 concerns about Vicka. I really want to be all about GL, and that’s more important than NBD. Working on how each position is above, not serves.

Illinois State University – Vicka always concerned about residents and be the national voice. What do you know about each? Thinks it is so important to be personable. Heather’s bid was exceptional, but it was missing how loving was going to be spread. Vicka would be able to deal with on all levels.

Time

## Extended

Kettering University – a lot of discussion about communication. Heather said in her bid that's what she wants to do, and wants to take it to national level.

Western Illinois University – personable is what RBD is all about

Rose Hulman Institute and Technology – I am here to represent school and RBD is already here to do that. All bids were excellent, oral bids. Heather was excellent.

DePaul University – letters from other regions, used own goals.

University of Indianapolis – Heather wants to take things to professional level. This would be a goal which stuck out. Vicka talked a lot about going to our schools.

UW- Green Bay – Heather stood above the rest with presentation

Freris State University – anyone can talk, but who can walk the talk. Heather can talk, but Vicka was more productive and seemed to be doing more. Issue sessions were much more important. Would feel much easier talking to Vicka and like her thought of making meetings fun. Vicka is reflecting us in policy book, bylaws and constitution.
