

Main Motion C | Polar Points Prize

Whereas, the 2017-2018 Regional Board of Directors noticed institutional participation seemed to decrease outside of conferences; and,

Whereas, we, the RBD, wanted to increase regional involvement outside of conferences; and,

Whereas, other regions within NACURH use incentivized point systems to increase involvement from their member schools; and,

Whereas, an incentivized point system is not complete without a prize; and,

Whereas, the proposed prize is full payment of affiliation dues for the next affiliation year for the institution with the most points at the end of the current affiliation year; and,

Therefore let it be resolved, that Title 6, Article XIII of GLACURH Governing Documents be updated to read

Article XII	Regional Financial Guidelines
Section 28	<p><u>Polar Points Prize</u></p> <p>A. <u>The institution with the most Polar Points at the end of the current affiliation year shall have their affiliation dues paid for by GLACURH for the next affiliation year.</u></p>

Respectfully Submitted,

Allen Dahlka, Associate Director for Administration and Finance
